**'Where everyone matters'**

Head Teacher Mrs. J. Bayliss

Monday, 03 March 2025

Dear parents/carers,

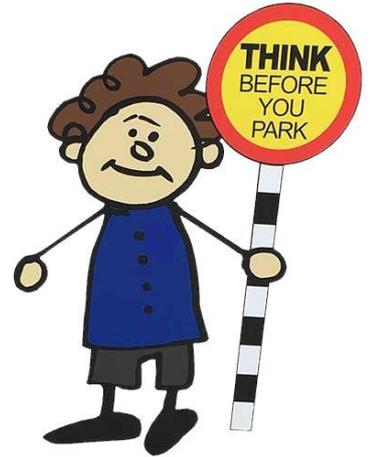

**We are again urging all parents and carers to park safely and responsibly outside school.**

Our school is located on a very busy and narrow road and ongoing unsafe parking is putting children at serious risk.

Recently, we have received multiple complaints from local residents, which have been reported to the local authority and police. As a result, police officers have started making unannounced visits to monitor the situation and parking fines have already been issued. Just last week, there was another collision between two cars outside the school gates.

While standing outside, I personally witnessed several instances of unsafe parking, including:

- Cars stopping on zig-zag lines outside the school gates and allowing children to jump out
- Double parking and blocking the road
- Parking on restricted areas, creating dangerous visibility issues

**This is incredibly concerning. We must work together to ensure the safety of our children.**

To further address this, we have already stopped parents from using the school driveway for parking to maintain safety. We thank those parents who have supported this decision. However, unsafe parking on the road outside school remains a serious issue.

Going forward, school staff will be monitoring the situation. If unsafe parking is observed, they may politely ask you to park elsewhere.

Finally, I must remind everyone that any abuse towards staff will not be tolerated. Our priority is the safety of all children and we need your cooperation to make the school environment as safe as possible.

Please help us prevent accidents and keep our children safe by parking responsibly.  
Thank you for your support.

Kind regards,

Jayne Bayliss  
Headteacher
