

**Keen gardeners and landscapers needed to help with the development of our well-being garden.**

**Can you spare some time on a Thursday morning or an afternoon.**

We would like to have a peaceful garden for all children at Burnt Tree to access as a way of improving their emotional well-being. The children have some wonderful ideas of how this would look, such as planters, bird feeders, benches, reading area and even a water feature.

A number of children have been working on this up-and-coming project, collecting recyclable items to make tables, benches and planters. We have also received some donations from local businesses and look to sourcing more in the future.

To start off we need a group of volunteers to help out with cutting back trees, bushes etc. Moving forward we also need any handy people that can turn wooden pallets into planters etc.

**Parents/carers, if you are interested in helping out or have any questions then please speak to Miss Gamwell or the school office.**
