

Safer Internet Newsletter

This week, our school joined others nationwide to celebrate Safer Internet Day 2026. This year's theme, '**Smart tech, safe choices – Exploring the safe and responsible use of AI,**' focuses on teaching children and young people the skills to use AI technology safely and responsibly, and highlights available support.

THEME

'Smart tech, safe choices – Exploring the safe and responsible use of AI'

Have a conversation.

Everyone's talking about AI and with many children hearing about and using AI online, it's important they have the skills and confidence to make safe choices when they are using smart technology. It is really important to have a conversation with your child about how they stay safe online.

Here are some conversation starters suggestions that can help.

- What's your favourite thing to do online?
- Have you ever used an AI tool? How did it make you feel?
- What do you like about AI technology?
- Do you have any worries about AI technology?
- What advice would you give to your friends about using AI?
- Who would you talk to if you saw something worrying online?
- What more can I do to help you feel safe online?

Also attached, is a PDF with 10 tips for supporting the safe use of AI.

If you have any concerns or questions about keeping your child safe online, please do get in touch with your child's class teacher or Mrs Gamwell our Designated Safeguarding Lead.

Help and Advice for you as a parent or carer.

Please visit Safer Internet website, parent and carers section for help and advice that you might need this Safer Internet Day.

Together for a better internet.
